REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Members of
Bethpage Federal Credit Union

We have audited the accompanying consolidated financial statements of Bethpage Federal Credit Union and Subsidiaries (the “Credit Union”), which comprise the consolidated statements of financial condition as of December 31, 2013 and 2012, and the related consolidated statements of income, comprehensive income, changes in members’ equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management’s responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Bethpage Federal Credit Union and Subsidiaries as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

1. SIGNIFICANT ACCOUNTING POLICIES

Organization

Bethpage Federal Credit Union (the "Credit Union") is a cooperative association holding a corporate charter under the provisions of the Federal Credit Union Act.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Credit Union and its wholly owned subsidiary, Bethpage Management Services, LLC ("BMS"). BMS owns 100% of Bethpage Risk Management, LLC, and 51% each of Land Bound Services, LLC, and CU Settlements Services, LLC. All material intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The principal estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, other than temporary impairment of investment securities, mortgage servicing rights, other real estate owned, and fair value of derivatives and other financial instruments. The evaluation of the adequacy of the allowance for loan losses includes an analysis of the individual loans and overall risk characteristics and size of the different loan portfolios, and takes into consideration current economic and market conditions, the capability of specific borrowers to pay specific loan obligations, as well as current loan collateral values. However, actual losses on specific loans, which are also encompassed in the analysis, may vary from estimated losses.

The Credit Union periodically evaluates each individual investment for impairment. Based upon the impairment testing completed as of December 31, 2013, the Credit Union determined that there were no investments that were other than temporarily impaired.

Cash, Cash Equivalents and Cash Flows

Cash and cash equivalents consist of cash on hand, demand deposits, and overnight investments. For purposes of reporting cash flows, loans receivable, other investments, and members' shares are reported net. Amounts due from financial institutions may exceed federally insured limits.

Investments

Investments that the Credit Union intends to hold for an indefinite period of time, but not necessarily to maturity, are classified as available-for-sale and are carried at fair value. Unrealized gains and losses on investments classified as available-for-sale have been accounted for as accumulated other comprehensive income.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Realized gains and losses on sale of available-for-sale securities are determined using the specific-identification method.

Amortization of premiums and discounts are recognized in interest income over the period to maturity. Declines in the fair value of individual available-for-sale securities below their respective costs that are other than temporary will result in write-downs of the individual securities to their fair value. Factors affecting the determination of whether an other-than-temporary impairment has occurred include a downgrading of the security by a rating agency, a significant deterioration in the financial condition of the issuer, or that management would not have the ability to hold a security for a period of time sufficient to allow for any anticipated recovery in fair value. Other investments are classified separately and are stated at cost.

Federal Home Loan Bank Stock

The Credit Union is a member of Federal Home Loan Bank of New York (“FHLBNY”). As a member of the FHLBNY, the Credit Union is required to acquire and hold shares of its capital stock.

No ready market exists for the FHLBNY stock, and it has no quoted market value. Therefore, the Credit Union’s investment in FHLBNY stock is carried at cost and tested for impairment. At December 31, 2013 and 2012, management did not believe the stock was impaired.

Loans Held for Sale

Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or estimated fair value. Mortgage loans held for sale are sold with the mortgage servicing rights retained by the Credit Union.

Loans Receivable and Allowance for Loan Losses

Loans are stated at the amount of unpaid principal, reduced by an allowance for loan losses and increased by deferred net loan origination costs. Interest on loans receivable is recognized over the terms of the loans and is calculated using the effective interest method on principal amounts outstanding. Loan fees and certain direct loan origination costs are deferred, and the net fee or cost is recognized as an adjustment to interest income.

The Credit Union determines a loan to be delinquent when payments have not been made according to contractual terms, typically evidenced by nonpayment of a monthly installment by the due date.

The Credit Union maintains its allowance for loan losses in accordance with Financial Accounting Standards Board (“FASB”), Accounting Standards Codification (“ASC”) 450, “Contingencies” and FASB ASC 310, “Receivables.” Both statements require the Credit Union to evaluate the collectability of interest and principal loan payments. The accrual of a loss is required when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Impaired loans are measured based upon the present value of expected future cash flows discounted at the loan’s effective interest rate or, as an alternative, at the loan’s observable market price or fair value of the collateral.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

A loan is defined under FASB ASC 310 as impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. In applying the provisions of FASB ASC 310, the Credit Union considers its investment in consumer loans to be homogeneous and therefore excluded from individual identification for evaluation of impairment. These homogeneous loan groups are evaluated for impairment on a collective basis under FASB ASC 450. With respect to the Credit Union's investment in residential, commercial and other loans, and its evaluation of impairment thereof, management believes such loans are collateral dependent and as a result impaired loans are carried as a practical expedient at the lower of cost or fair value of the collateral.

It is the Credit Union's policy to charge off unsecured loans that are more than 150 days delinquent. Similarly, non-homogeneous collateral-dependent loans which are more than ninety days delinquent are considered to constitute more than a minimum delay in repayment and are individually evaluated for impairment under FASB ASC 310 at that time.

The allowance for loan losses is adjusted by a provision for loan losses recorded to expense and decreased by charge-offs (net of recoveries). Loans are charged against the allowance for loan losses when management believes that collectability of the principal is unlikely. The allowance is an amount management believes will be adequate to absorb estimated incurred losses on existing loans. Management's periodic evaluation of the adequacy of the allowance is based on the Credit Union's past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and current economic conditions. While management uses the best information available to make its evaluations, further adjustments to the allowance may be necessary if there are significant changes in economic conditions.

Transfers and Servicing of Financial Assets

The Credit Union accounts for the right to service mortgage loans sold to others under FASB ASC 860, "Transfers and Servicing." Mortgage servicing rights have been recognized as a separate asset and are being amortized in proportion to and over the period of estimated net servicing income.

FASB ASC 860 requires the Credit Union to recognize as a separate asset the right to service mortgage loans for others. An institution that acquires mortgage servicing rights through either the purchase or the origination of mortgage loans and sells those loans with servicing rights retained must allocate a portion of the cost of the loans to the mortgage servicing rights. Under FASB ASC 860, the Credit Union could elect to either amortize the mortgage servicing rights over the life of the loan or carry the mortgage servicing rights at fair value. Under both methodologies, the mortgage servicing rights would be tested for impairment. Management elected to continue with the amortization method of accounting for mortgage servicing rights.

Mortgage servicing rights are periodically evaluated for impairment based on the fair value of those rights. Fair values are estimated using discounted cash flows based on current market rates of interest and current expected future prepayment rates. For purposes of measuring impairment, the rights must be stratified by one or more predominant risk characteristics of the underlying loans. The amount of impairment recognized is the amount, if any, by which the amortized cost of the rights for each stratum exceed their fair value.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

The mortgage servicing rights recorded by the Credit Union were segregated into pools for valuation purposes, using as pooling criteria the loan type, loan term, investor, interest rate, maturity date, origination date, and coupon rate. Once pooled, each grouping of loans was evaluated on a discounted earnings basis to determine the present value of future earnings that a purchaser could expect to realize from each portfolio. Earnings were projected from a variety of sources including loan servicing fees, interest earned on float, net interest earned on escrows, miscellaneous income, and costs to service the loans. The present value of future earnings is the economic value of the pool, *i.e.*, the net realizable present value to an acquirer of the servicing rights.

The valuation of mortgage servicing rights is influenced by market factors, including servicing volumes and market prices, as well as management's assumptions regarding mortgage prepayment speeds and interest rates. Impairment is measured based on the fair value of each pool. Management utilizes periodic third-party valuations by market professionals to evaluate the fair value of its capitalized mortgage servicing assets.

Accrued Interest on Loans

Interest is accrued as earned unless the collectability of the loan is in doubt. Accrual of interest on loans is discontinued when management believes that, after considering economics, business conditions, and collection efforts, the borrower's financial condition is such that collection of principal and interest is doubtful. The Credit Union's policy is to stop accruing interest when the loan becomes 90 days delinquent. All interest accrued but not collected for loans that are placed on nonaccrual status or subsequently charged off is reversed against interest income. Income is subsequently recognized on the cash basis until, in management's judgment, the borrower's ability to make periodic interest and principal payments has returned to normal and future payments are reasonably assured, in which case the loan is returned to accrual status.

Property and Equipment

Land is carried at cost. Building, furniture and equipment, data processing and leasehold improvements are carried at cost, less accumulated depreciation and amortization. Buildings, furniture and equipment and data processing are depreciated using the straight-line method over the estimated useful lives of the assets. The cost of leasehold improvements is amortized using the straight-line method over the shorter of the terms of related leases or the useful lives of the improvements.

National Credit Union Share Insurance Fund Deposit

The deposit in the National Credit Union Share Insurance Fund ("NCUSIF") is in accordance with National Credit Union Administration ("NCUA") regulations, which require the maintenance of a deposit by each federally insured Credit Union in an amount equal to 1% of its insured members' shares. The deposit would be refunded to the Credit Union if its insurance coverage is terminated, if it converts its insurance coverage to another source, or if management of the fund is transferred from the NCUA board.

Real Estate Acquired Through Foreclosure

Real estate acquired through foreclosure is carried at fair value on the date of acquisition plus certain capitalized costs, net of estimated disposal costs. Carrying costs such as maintenance, interest and taxes are charged to operations as incurred. Because of changing market conditions, there are inherent uncertainties in the assumptions with respect to the estimated fair value of other real estate owned. Because of these inherent uncertainties, the amount ultimately realized on other real estate owned may differ from the amounts reflected in the consolidated financial statements.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Derivative Financial Instruments

Derivative financial instruments are recognized as assets and liabilities on the consolidated statements of financial condition. This information is presented in Note 10.

Derivative Loan Commitments

Mortgage loan commitments are considered derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. Loan commitments that are derivatives are recognized at fair value on the consolidated statements of financial condition in other assets or other liabilities with changes in fair values recorded in gain on sale of mortgage loans.

The Credit Union records a zero value for the loan commitment at inception (at the time the commitment is issued to a borrower) and does not recognize the value of the expected normal servicing rights until the underlying loan is sold. Subsequent to inception, changes in the fair value of the loan commitment are recognized based on changes in the fair value of the underlying mortgage loan due to interest rate changes, changes in the probability the derivative loan commitment will be exercised and the passage of time. In estimating fair value, the Credit Union assigns a probability to a loan commitment based on an expectation that it will be exercised and the loan will be funded.

Forward Loan Sale Commitments

The Credit Union utilizes forward loan sale commitments to mitigate the risk of potential decreases in the values of loans that might result from the exercise of the derivative loan commitments. Generally, the Credit Union's contracts meet the definition of derivative instruments. Accordingly, forward loan sale commitments are recognized at fair value on the consolidated statements of financial condition in other assets or other liabilities with changes in their fair values recorded in gain on sale of mortgage loans.

The Credit Union estimates the fair value of its forward loan sales commitments using a methodology similar to that used for derivative loan commitments.

Members' Shares

Members' shares are the deposit accounts of the owners of the Credit Union. Share ownership entitles the members to vote in the annual elections of the Board of Directors and on other corporate matters. Irrespective of the amount of shares owned, no member has more than one vote. Members' shares are subordinated to all other liabilities of the Credit Union upon liquidation. Dividends on members' shares are based on available earnings at the end of a dividend period and are not guaranteed by the Credit Union. Dividend rates are set by the Credit Union's management.

Income Taxes

The Credit Union is exempt, by statute, from federal and state income taxes.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Pension Plan

The Credit Union has a qualified, noncontributory defined-benefit pension plan covering substantially all of its employees. The Credit Union's policy is to fund an amount in excess of the minimum amount required under the Employee Retirement Income Security Act ("ERISA"). The Credit Union accounts for the pension plan in accordance with FASB ASC 715, "Compensation." FASB ASC 715 requires an employer to (a) recognize in its balance sheet the overfunded or underfunded status of a defined benefit postretirement plan measured as the difference between the fair value of plan assets and the benefit obligation; (b) measure a plan's assets and its obligations that determine its funded status as of the date of its year-end balance sheet; and (c) recognize as a component of other comprehensive income the actuarial gains and losses and the prior service costs and credits that arise during the period. FASB ASC 715 does not change how an employer determines the amount of net periodic benefit cost.

Comprehensive Income/Loss

The Credit Union records unrealized gains and losses on available-for-sale securities in other comprehensive income in members' equity. Gains and losses on available-for-sale securities reclassified to net income as gains or losses are realized upon the sale of securities. Unrealized losses arising during 2013 approximated \$50,715 and are recorded in other comprehensive income net of a reclassification adjustment of approximately \$2,872 for gains included in net income. Unrealized gains arising during 2012 approximated \$22,744 and are recorded in other comprehensive income net of a reclassification adjustment of approximately \$6,810 for gains included in net income.

	<u>2013</u>	<u>2012</u>
Net unrealized gain on securities available for sale	\$ 8,729	\$ 59,444
Net actuarial loss on pension plans and other postretirement benefits	(18,193)	(33,289)
Prior service credit on pension plans and other postretirement benefits	<u>4,231</u>	<u>853</u>
Accumulated other comprehensive (loss) income	<u>\$ (5,233)</u>	<u>\$ 27,008</u>

The Credit Union recorded \$18,474 and \$4,776 in comprehensive gains and losses, respectively, related to the pension plans in 2013 and 2012, respectively. See Note 11 - Employee Benefits for further information.

Recent Accounting Pronouncements

In December 2011, the FASB issued ASU 2011-11, which provides common disclosure requirements to facilitate a comparison of financial statements prepared under U.S. GAAP and those prepared under IFRS. Under the amendments, entities with financial instruments and derivatives that are either offset on the balance sheet or subject to a master netting or similar arrangement are required to disclose the following information separately for assets and liabilities in a tabular format: (1) gross amounts of recognized assets and liabilities (2) offsetting amounts that determine the net amount presented in the balance sheet (3) net amounts presented in the balance sheet (4) amounts subject to an enforceable master netting arrangement that were not already included in the disclosure required by (2), including: (i) amounts related to recognized financial instruments and other derivative instruments if either (a) management makes an accounting election not to offset the amounts, or (b) the amounts do not meet the right of setoff conditions in ASC 210-30-45, Balance Sheet: Offsetting, or in ASC 815-10-45, Derivatives and Hedging (ii) amounts related to financial collateral (5) Net amount after deducting the

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

amounts in (4) from the amounts in (3) above. In addition to the tabular disclosures described above, entities are required to provide a description of the setoff rights associated with assets and liabilities subject to an enforceable master netting arrangement. These amended disclosure requirements are effective for annual reporting periods beginning on or after January 1, 2013. The disclosures required must be provided retrospectively for all comparative periods presented. Adoption of this update did not have a material effect on the Credit Union's consolidated financial statements.

Reclassifications

Certain reclassifications have been made to the 2012 consolidated financial statements to conform to the 2013 consolidated financial statement presentation. These reclassifications had no effect on net income.

2. INVESTMENTS

Investments classified as available-for-sale consist of the following:

<u>December 31, 2013</u>	<u>Amortized Cost</u>	<u>Unrealized Gains</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>
Agency issued securities	\$ 675,838	\$ 11,117	\$ (6,088)	\$ 680,867

The unrealized losses associated with these investments are considered temporary as the Credit Union does not have the intention to sell nor will they be required to sell prior to recovery or maturity. Management believes that the temporary unrealized loss is due to the interest rate and liquidity environment. Such determination was based upon an evaluation of the creditworthiness of the issuers and/or guarantors, the underlying collateral, if applicable, as well as the continuing performance of the securities. Management also evaluates other facts and circumstances that may be indicative of an other-than-temporary impairment condition. This includes, but is not limited to, an evaluation of the type of security and length of time and extent to which the fair value has been less than cost, as well as certain collateral related characteristics.

Other investments consist of the following:

	<u>December 31,</u>	
	<u>2013</u>	<u>2012</u>
Certificates of deposit in banks and savings institutions	\$ 2,059	\$ 7,815
Federal Home Loan Bank stock	11,451	8,236
	<u>\$ 13,510</u>	<u>\$ 16,051</u>

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Certificates are generally nonnegotiable and nontransferable, and may incur substantial penalties for withdrawal prior to maturity.

At December 31, 2013 and 2012, there were approximately \$930 and \$2,053, respectively, in Credit Union and bank deposits with individual balances in excess of the insured limit.

Investments by maturity as of December 31, 2013, are summarized as follows:

	Available-for-Sale		
	Amortized Cost	Fair Value	Other Investments
No contractual maturity	\$ -	\$ -	\$ 11,451
Less than 1 year maturity	618,566	625,545	490
1-5 years maturity	153,682	155,516	1,569
5-10 years maturity	74,953	71,185	-
Mortgage-backed securities	1,563,381	1,567,094	-
Auction rate securities	9,000	8,971	-
	<u>\$ 2,419,582</u>	<u>\$ 2,428,311</u>	<u>\$ 13,510</u>

Expected maturities of mortgage-backed securities may differ from contractual maturities because borrowers may have the right to prepay the obligations and are, therefore, classified separately with no specific maturity date. FHLB NY stock has been classified with no contractual maturity.

Collateral pledged for potential borrowings are summarized below:

	2013	2012
Available-for-sale-securities	\$ 265,495	\$ 137,307
Federal Home Loan Bank stock	11,451	8,236

See Note 7 - Borrowed Funds for further information.

3. LOANS RECEIVABLE AND CREDIT QUALITY

The Credit Union categorizes loans into risk categories based on numerous factors. Some of those factors include, but are not limited to, financial strength, industry/economic trends, and credit history. Each loan is assessed individually and grouped into a sub-category such as commercial, commercial real estate, commercial loan participations - real estate, residential and home equity and home equity lines of credit. This analysis is performed on a quarterly basis.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

The ratings listed below are used when determining the rating for each loan:

Special Mention - A special mention loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the Credit Union's credit position at some future date. Special mention assets are not adversely classified and do not expose the Credit Union to sufficient risk to warrant adverse classification.

Substandard - A substandard loan is inadequately protected by the current net worth and paying capacity of the obligor or by the collateral pledged, if any. Assets so classified must have a well-defined weakness, or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Credit Union will sustain some loss if the deficiencies are not corrected.

Doubtful - A doubtful loan has all the weaknesses inherent in one classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full highly questionable and improbable on the basis of currently known facts, conditions, and values.

All loans that are deemed to not fall within these risk ratings are given a pass risk rating.

The following is a summary of the credit risk profile of the real estate loans (principal balance only). The Credit Union utilizes internally assigned grades for commercial real estate loans and payment activity for commercial loans, residential real estate and home equity loans:

	December 31, 2013				
	Commercial	Commercial Real Estate	Commercial Loan Participations Real Estate	Residential	Home Equity Loans and Home Equity Lines of Credit

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

The Credit Union has purchased commercial loan participations originated by various other credit unions and banks. All of these loan participations were purchased without recourse and are collateralized by real property.

The Credit Union offers nontraditional hybrid/balloon mortgage loans to its members. Hybrid/balloon loans consist of loans that are fixed for an initial period of three, five, seven, or ten years. After this period, the mortgages are converted to variable rate using the fully indexed rate capped at an annual increase of two percent, which can result in significant payment increase to the borrower. During 2013 and 2012, the Credit Union did not engage in subprime lending.

In accordance with U.S. GAAP, the Credit Union is required to account for certain loan modifications or restructurings as “troubled debt restructurings.” In general, such a modification or restructuring of a loan constitutes a troubled debt restructuring if the Credit Union grants a concession to a borrower experiencing financial difficulty. Concessions are normally in the form of term modifications and interest rate reductions. Loans modified in a troubled debt restructuring are considered impaired loans. Loans modified in a troubled debt restructuring, totaled \$67,489 and \$61,535 at December 31, 2013 and 2012, respectively.

The following table summarizes activity related to TDRs for the years indicated:

	December 31, 2013		
	Number of Contracts	Pre-Modification Outstanding Recorded Investment	Post- Modification Outstanding Recorded Investment
Troubled debt restructurings:			
Residential	42	\$ 10,582	\$ 11,003

The allowance for loan losses is an estimate for probable incurred credit losses. Loan losses are charged against the allowance when management believes the uncollectibility of all or part of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance required using, among other factors, past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, and economic conditions. Allocations to the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged off.

4. LOAN SERVICING

Mortgage loans serviced for others are not included in the accompanying consolidated statements of financial condition. The unpaid principal balances of these loans at December 31, 2013 and 2012 are summarized as follows:

	Years Ended December 31,	
	2013	2012
Mortgage loans underlying pass-through securities		
Federal National Mortgage Association	\$ 2,775,753	\$ 2,446,214
Charlie Mac, LLC	4,768	5,356
Government National Mortgage Association	53,201	42,800
Federal Home Loan Mortgage Corporation	258,363	299,236
Federal Home Loan Bank of New York	41,831	20,386
Conventional (other)	<u>5,606</u>	<u>2,136</u>
	<u>\$ 3,139,522</u>	<u>\$ 2,816,128</u>

Custodial escrow balances maintained in connection with the foregoing loan servicing, and included in members' shares, were approximately \$18,737 and \$16,709 at December 31, 2013 and 2012, respectively.

The following table presents a summary of the changes in the balance of mortgage servicing rights:

	Years Ended December 31,	
	2013	2012
Balance, beginning of year	\$ 17,365	\$ 14,993
Servicing assets recognized during the year	6,007	8,452
Amortization of servicing assets	(4,676)	(4,317)
Impairment of servicing assets	<u>(5)</u>	<u>(1,763)</u>
Balance, end of year	<u>\$ 18,691</u>	<u>\$ 17,365</u>
Fair value of mortgage servicing rights	<u>\$ 33,740</u>	<u>\$ 18,580</u>

5. PROPERTY AND EQUIPMENT

Property and equipment are summarized as follows:

	Years Ended December 31,	
	2013	2012
Land and improvements	\$ 1,800	\$ 1,800
Building	15,154	15,154
Furniture and equipment	13,149	12,781
Data processing	21,100	18,926
Automobile	38	-
Leasehold improvements	<u>16,496</u>	<u>16,254</u>
	67,737	64,915
Accumulated depreciation and amortization	<u>(45,952)</u>	<u>(42,129)</u>
	<u>\$ 21,785</u>	<u>\$ 22,786</u>

The Credit Union leases various offices. The operating leases contain renewal options and provisions requiring the Credit Union to pay property taxes and operating expenses over base period amounts. All rental payments are dependent only upon the lapse of time. Minimum rental payments under operating leases with initial or remaining terms of one year or more at December 31, 2013, are as follows:

<u>Years Ending December 31,</u>	<u>Minimum Rental Payments</u>
2014	\$ 3,196
2015	3,159
2016	2,558
2017	2,286
2018	1,948
Subsequent years	<u>11,291</u>
	<u>\$ 24,438</u>

Rental expense for the years ended December 31, 2013 and 2012 for all facilities leased under operating leases totaled \$3,817 and \$3,672, respectively.

(dollars in thousands)

6. MEMBERS' SHARES

Members' shares are summarized as follows:

	Years Ended December 31,	
	2013	2012
Regular shares	\$ 718,006	\$ 607,576
Share draft accounts	596,881	496,380
Money market accounts	1,643,003	1,578,150
Individual retirement accounts - money market	126,159	125,731
Certificates	<u>1,803,739</u>	<u>1,763,376</u>
	<u>\$ 4,887,788</u>	<u>\$ 4,571,213</u>

Shares by maturity as of December 31, 2013 are summarized as follows:

No contractual maturity	\$ 3,084,049
0-1 year maturity	784,142
1-2 years maturity	521,494
2-3 years maturity	312,909
3-4 years maturity	91,374
4-5 years maturity	<u>93,820</u>
	<u>\$ 4,887,788</u>

Regular shares, share draft accounts, money market accounts, and individual retirement account shares have no contractual maturity. Certificate accounts have maturities of five years or less.

The National Credit Union Share Insurance Fund insures members' shares up to \$250. The aggregate amount of certificates in denominations of \$250 or more at December 31, 2013 and 2012 is approximately \$135,242 and \$126,174, respectively.

At December 31, 2013 and 2012, overdraft demand shares reclassified to loans totaled \$330 and \$215, respectively.

7. BORROWED FUNDS

The Credit Union has lines of credits with various financial institutions. The terms of the agreements call for pledging assets as security for any and all obligations taken by the Credit Union. The agreements provide for a total borrowing capacity of \$2,046,000 with interest charged at a rate determined by the lenders on a periodic basis. At December 31, 2013, the Credit Union had outstanding borrowings of \$19,750 at a rate of 0.40% from the FHLB NY with a maturity date of January 2, 2014.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

At December 31, 2012 there were no borrowings under the agreements. Additionally, there were no draws outstanding on these lines of credit for any material length of time in 2013 or 2012. The agreements are reviewed for continuation by the lenders and the Credit Union annually.

8. CONCENTRATIONS OF CREDIT RISK

Participation in the Credit Union is limited to those individuals who qualify for membership. The field of membership is defined in the Credit Union's bylaws. Under a community charter approved during 2003 by NCUA, the Credit Union's field of membership includes all individuals who live, work, worship, or attend school in New York's Nassau County and in substantially all of New York's Suffolk County. Although the Credit Union has a diversified loan portfolio, borrowers' ability to repay loans may be affected by the economic climate of the overall geographic region in which borrowers reside.

9. COMMITMENTS AND CONTINGENT LIABILITIES

The Credit Union is a party to various legal actions normally associated with collections of loans and other business activities of financial institutions, the aggregate effect of which, in management's opinion, would not have a material adverse effect on the financial condition or results of operations of the Credit Union.

The Credit Union has approximately \$46,756 and \$95,578 in outstanding commitments to sell loans at December 31, 2013 and 2012, respectively.

Outstanding mortgage loan commitments at December 31, 2013 and 2012 total approximately \$98,615 and \$295,285, respectively.

Outstanding loan commitments are summarized as follows:

	Years Ended December 31,	
	2013	2012
Home equity	\$ 387,817	\$ 294,442
Consumer - credit card	190,181	171,153
Consumer - other	180,642	164,499
Commercial	10,610	7,006
Commercial - real estate	3,641	9,998
Commercial participation - real estate	30	30
	<u>\$ 772,921</u>	<u>\$ 647,128</u>

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Commitments for home equity and unsecured lines of credit may expire without being drawn upon. Therefore, the total commitment amount does not necessarily represent future cash requirements of the Credit Union. These commitments are not reflected in the consolidated financial statements.

In the ordinary course of business, the Credit Union is exposed to potential claims and/or litigation under representations and warranties made to purchasers and insurers of mortgage loans as well as the purchasers of servicing rights. Under certain circumstances, the Credit Union may be required to repurchase mortgage loans or indemnify the purchasers of loans or servicing rights for losses if there has been a breach of representations or warranties. Any resulting liabilities would be recorded at the date the loss is probable and could be reasonably estimated.

10. DERIVATIVE FINANCIAL INSTRUMENTS

Certain derivative instruments do not meet the requirements to be accounted for as hedging instruments. These undesignated derivative instruments are recognized in other assets and accrued expenses and other liabilities on the consolidated statements of financial condition at fair value, with changes in fair value recorded in gain on sale of mortgage loans.

Derivative Loan Commitments

Mortgage loan commitments are considered derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. The Credit Union enters into commitments to fund residential mortgage loans at specified times in the future, with the intention that these loans will subsequently be sold in the secondary market. A mortgage loan commitment binds the Credit Union to lend funds to a potential borrower at a specified interest rate and within a specified period of time, generally up to 60 days after inception of the rate lock.

Outstanding derivative loan commitments expose the Credit Union to the risk that the price of the loans arising from exercise of the loan commitment might decline from inception of the rate lock to funding of the loan due to increases in mortgage interest rates. If interest rates increase, the value of these loan commitments decreases. Conversely, if interest rates decrease, the value of these loan commitments increases.

Forward Loan Sale Commitments

To protect against the price risk inherent in derivative loan commitments, the Credit Union utilizes forward loan sale commitments to mitigate the risk of potential decreases in the values of loans that would result from the exercise of the derivative loan commitments.

With a forward loan sale contract, the Credit Union commits to deliver an individual mortgage loan of a specified principal amount and quality to an investor if the loan to the underlying borrower closes. Generally, the price the investor will pay the seller for an individual loan is specified prior to the loan being funded.

11. EMPLOYEE BENEFITS

The Credit Union sponsors a funded, noncontributory defined benefit pension plan. The Credit Union also sponsors an unfunded, noncontributory, nonqualified defined benefit supplemental executive retirement plan. The plans call for benefits to be paid to eligible employees at retirement based primarily upon years of service with the Credit Union and compensation levels at retirement. Contributions to the plan reflect benefits attributed to employees' services to date, as well as services expected to be earned in the future. Plan assets consist primarily of equity securities.

The Credit Union also sponsors a postretirement benefit plan to provide health care benefits to retirees of the Credit Union from retirement until Medicare benefits become available. The postretirement benefits take into account actuarial assumptions that consider employee's age, years to retirement, and years to Medicare benefits. Other assumptions include that the plan will pay a portion of the health care premium for the retirees, and a factor of the health care cost trend rate.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

The funded, noncontributory defined benefit pension plan's expected long-term rate of return assumption is based on a building block approach, determining risk-free asset return assumptions, and applying a weighted average methodology to the proportion of plan assets in each applicable asset class.

The Credit Union's pension plan approximate weighted-average asset allocations by asset category are as follows:

	Pension Plans	
	2013	2012
Equity securities (Level 1)	73 %	67 %
Debt securities (Level 2)	25	30
Other (Level 1)	<u>2</u>	<u>3</u>
	<u>100 %</u>	<u>100 %</u>

The Credit Union's pension investment strategies are targeted to produce a total return that, when combined with the Credit Union's contributions to the plan, will maintain the fund's ability to meet all required benefit obligations. Risk is controlled through diversification of asset types and investments in domestic and international equities, fixed income securities and cash.

The minimum contribution requirement is \$2,337 for the pension plan and approximately \$326 to the postretirement benefit plan in 2013.

The following pension and postretirement benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

<u>Years Ending December 31,</u>	<u>Pension/Postretirement</u>	<u>Benefit Payments</u>
2014	\$	1,986
2015		1,965
2016		2,146
2017		2,350
2018		2,563
2019-2023		<u>18,566</u>
	\$	<u>29,576</u>

In December 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act") was enacted. The Act established a prescription drug benefit under Medicare, known as "Medicare Part D," and a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The Credit Union believes that benefits provided to certain participants will be at least actuarially equivalent to Medicare Part D and, accordingly, the Credit Union will be entitled to a subsidy.

The Credit Union has a defined contribution 401(k) plan that allows employees to defer a portion of their salary into the 401(k) plan. The Credit Union matches a portion of employees' wage contributions. Plan costs are accrued and funded on a current basis. The Credit Union contributed

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

approximately \$994 and \$1,008, respectively, to the plan for the years ended December 31, 2013 and 2012.

The composition of plan assets for the years ended December 31, 2013 and 2012 are all Level 1 and Level 2 securities.

The noncontributory defined benefit pension plan was amended as of June 1, 2012. The plan is closed to new hires on or after March 1, 2012.

12. MEMBERS' EQUITY

The Credit Union is subject to various regulatory capital requirements administered by the NCUA. Failure to meet minimum capital requirements can initiate certain mandatory - and possibly additional discretionary - actions by regulators that, if undertaken, could have a direct material effect on the Credit Union's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Credit Union must meet specific capital guidelines that involve quantitative measures of the Credit Union's assets, liabilities, and certain off-balance-sheet items as calculated under U.S. GAAP. The Credit Union's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Credit Union to maintain minimum amounts and ratios (set forth in the table below) of net worth to total assets. Further, Credit Unions over \$10,000 in assets are also required to calculate a risk-based net worth ("RBNW") requirement which establishes whether or not the Credit Union will be considered "complex" under the regulatory framework. The Credit Union's RBNW requirements as of December 31, 2013 and 2012 were 6.28% and 6.26%, respectively. The minimum requirement to be considered "complex" under the regulatory framework is 6%. Management believes, as of December 31, 2013 and 2012, that the Credit Union meets all capital adequacy requirements to which it is subject.

As of December 31, 2013, the most recent call reporting period, and 2012, the NCUA categorized the Credit Union as "well capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well capitalized," the Credit Union must maintain a minimum net worth ratio of 7% of assets. There are no conditions or events since that notification that management believes have changed the institution's category.

The Credit Union's actual capital amounts and ratios are presented in the following table:

	December 31, 2013		December 31, 2012	
	Amount	Ratio/ Requirement	Amount	Ratio/ Requirement
Amount needed to be classified as "adequately capitalized"	\$ 326,700	6.0 %	\$ 308,643	6.0 %
Amount needed to be classified as "well capitalized"	381,150	7.0 %	360,084	7.0 %
Actual net worth	457,049	8.4 %	413,084	8.0 %

Because the RBNW requirement is less than the net worth ratio, the Credit Union retains its original category. Further, in performing its calculation of total assets, the Credit Union used the quarter-end balance option, as permitted by regulation.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

13. RELATED PARTY TRANSACTIONS

In the normal course of business, the Credit Union extends credit to directors, supervisory committee members and executive officers. The aggregate loans to related parties at December 31, 2013 and 2012 are \$5,648 and \$5,070, respectively. Deposits from related parties at December 31, 2013 and 2012 amounted to \$2,923 and \$3,010, respectively.

The Credit Union holds equity method investments in certain credit union service organizations (“CUSOs”). These CUSOs provide back-office and other operational services to the Credit Union.

The Credit Union owns a one third interest in S3 Shared Service Solutions, LLC (“S3”) which provides various services to the Credit Union. The investment is included in other assets on the consolidated statements of financial condition and totaled \$2,845 and \$1,923 at December 31, 2013 and 2012, respectively. Net expenses for services provided by S3 were \$3,808 and \$1,383 during the years ended December 31, 2013 and 2012, respectively, and are included in operations expenses on the consolidated statements of income. The investment in S3 is recorded using the equity method of accounting.

Two other credit unions (“CUs”) also each own one third interests in S3. During 2013, the Credit Union entered into a shared employee agreement (the “Agreement”) with S3 in which it provides certain services to the CUs. The Credit Union receives payments from the CUs for services provided at cost through the Agreement and remits all payments to S3 in accordance with the Agreement. These payments amounted to \$4,828 for the year ended December 31, 2013. The payments are carried net in the consolidated financial statements and had no effect on net income.

The Credit Union owns a one third interest in Open Technology Solutions, LLC (“OTS”) which provides Data Support Services to the Credit Union. The investment, included in other assets on the consolidated statements of financial condition, totaled \$942 at December 31, 2013 and 2012. Expenses for services provided by OTS were \$4,399 and \$3,715 for the years ended December 31, 2013 and 2012, respectively, and are included in operations expenses on the consolidated statements of income. The investment in OTS is recorded using the equity method of accounting.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Credit Union generally holds its earning assets, other than securities available-for-sale and loans held for sale, to maturity and settles its liabilities at maturity. However, fair value estimates are made at a specific point in time and are based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Credit Union’s entire holdings of a particular instrument. Accordingly, as assumptions change, such as interest rates and prepayments, fair value estimates change and these amounts may not necessarily be realized in an immediate sale.

Disclosure of fair value does not require fair value information for items that do not meet the definition of a financial instrument or certain other financial instruments specifically excluded from its requirements. These items include property and equipment, leases, and equity.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Further, fair value disclosure does not attempt to value future income or business. These items may be material and, accordingly, the fair value information presented does not purport to represent, nor should it be construed to represent, the underlying “market” or franchise value of the Credit Union.

The Credit Union accounts for and discloses fair value using the guidance of FASB ASC 820, “Fair Value Measurement and Disclosures.” FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosure about fair value. FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value. A financial instrument’s level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement. There have been no material changes in valuation techniques as a result of the adoption of FASB ASC 820.

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Credit Union has the ability to access at the measurement date.
- Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active for identical or similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - Unobservable inputs that are supported by little or no market activity and significant to the fair value of the assets or liabilities that are developed using the reporting entities’ estimates and assumptions, which reflect those that market participants would use.

Assets and Liabilities Measured at Fair Value on a Recurring Basis and Non-recurring Basis

A description of the valuation methodologies used for financial instruments measured at fair value on a recurring basis, as well as the classification of the instruments pursuant to the valuation hierarchy, are as follows:

Securities classified as available-for-sale are reported using Level 1, Level 2 and Level 3 inputs. Level 1 securities generally include equity securities valued based on quoted market prices in active markets. Level 2 instruments include agency issued securities, municipal bonds, mortgage-backed securities, collateralized mortgage obligations and certain auction rate securities. For these securities, the Credit Union obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond’s terms and conditions, among other things. Level 3 securities available-for-sale consist of instruments that are not readily marketable and may only be redeemed with the issuer at par such as Federal Home Loan Bank (“FHLB”) stock and certain auction rate securities. The FHLB stock is stated at par value, which is deemed to approximate fair value. The auction rate securities are valued using a third-party pricing service. Due to their illiquidity, a discounted cash flows model is utilized, and assumptions are made for inputs such as discount rates, yield curves, and prepayment speeds based on comparability to the underlying terms of the securities.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

Mortgage servicing rights are classified as Level 3 financial instruments with the methodology described in Note 1 - Significant Accounting Policies: Transfers and Servicing of Financial Assets.

Impaired loans are evaluated and valued at the time the loan is identified as impaired, at the lower of the recorded investment in the loan or market value. The loans identified as impaired are collateral dependent secured by real estate. Market value is determined by using the value of the collateral securing the loans and is therefore classified as a Level 3 hierarchy. The value of the real estate is determined by independent licensed appraisers contracted by the Credit Union to perform the assessment. The appraised value is then discounted based upon management's experience, which includes estimated disposal costs, understanding of the member and the member's business as well as economic conditions. Impaired loans are reviewed and evaluated on a quarterly basis for additional impairment and adjusted accordingly, based upon the pertinent conditions.

Real estate acquired through foreclosure ("other real estate owned" or "OREO") is carried at the lower of fair value at acquisition date or current estimated fair value, less estimated cost to sell when the real estate is acquired. Estimated fair value of OREO is based on appraisals or evaluations. OREO is classified within Level 3 of the fair value hierarchy. Appraisals of OREO are obtained when the real estate is acquired and subsequently as deemed necessary by management.

Assets measured at fair value on a non-recurring basis are summarized below:

	Fair Value Measurement Using			Balance December 31, 2013
	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Impaired loans	\$ -	\$ -	\$ 93,800	\$ 93,800
Real estate acquired through foreclosure	-	-	4,064	4,064
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 97,864</u>	<u>\$ 97,864</u>

	Fair Value Measurement Using			Balance December 31, 2012
	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Impaired loans	\$ -	\$ -	\$ 86,118	\$ 86,118
Real estate acquired through foreclosure	-	-	5,261	5,261
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 91,379</u>	<u>\$ 91,379</u>

Assets measured at fair value on a recurring basis are summarized below:

	Fair Value Measurement Using			Balance December 31, 2013
	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Investment securities available- for-sale:				
Agency issued securities	\$ -	\$ 680,867	\$ -	680,867
Agency issued MBS/CMOs	-	1,567,094	-	1,567,094
Municipal bonds	-	171,379	-	171,379
Auction rate securities	-	-	8,971	8,971
Mortgage servicing rights	-	-	33,740	33,740
Loans held for sale	-	14,497	-	14,497
Total assets	\$ -	\$ 2,433,837	\$ 42,711	\$ 2,476,548

The above table includes \$ 25,147 in unrealized losses on the Credit Union's available-for-sale securities. The Credit Union has reviewed its investment portfolio at December 31, 2013, and has determined that the unrealized losses are temporary.

	Fair Value Measurement Using			Balance December 31, 2012
	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Investment securities available- for-sale:				
Agency issued securities	\$ -	\$ 398,165	\$ -	398,165
Agency issued MBS/CMOs	-	1,710,347	-	1,710,347
Municipal bonds	-	229,220	-	229,220
Auction rate securities	-	-	18,259	18,259
Mortgage servicing rights	-	-	18,580	18,580
Loans held for sale	-	31,105	-	31,105
Total assets	\$ -	\$ 2,368,837	\$ 36,839	\$ 2,405,676

The above table includes \$2,956 in unrealized losses on the Credit Union's available-for-sale securities. The Credit Union has reviewed its investment portfolio at December 31, 2012, and has determined that the unrealized losses are temporary.

The following table sets forth the Credit Union's assets and liabilities that are carried at fair value on a recurring basis, classified within Level 3 of the valuation hierarchy for the period indicated:

	Auction Rate Securities - Level 3	
	December 31, 2013	December 31, 2012
Balance, beginning of year	\$ 18,259	\$ 23,355
Securities called by the issuer	(10,000)	(5,300)
Change in unrealized losses	<u>712</u>	<u>204</u>
Balance, end of year	<u>\$ 8,971</u>	<u>\$ 18,259</u>

The following table sets forth the Credit Union's assets and liabilities that are carried at fair value on a non-recurring basis, classified within Level 3 of the valuation hierarchy for the period indicated:

	Other Real Estate Owned - Level 3	
	December 31, 2013	December 31, 2012
Balance, beginning of year	\$ 5,261	\$ 5,148
Additions	515	1,596
Writedown of assets	(52)	(38)
Sales of assets	<u>(1,660)</u>	<u>(1,445)</u>
Balance, end of year	<u>\$ 4,064</u>	<u>\$ 5,261</u>

The estimated fair value amounts have been determined by the Credit Union using available market information and appropriate valuation methodologies. However, considerable judgment is necessarily required to interpret market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Credit Union could realize in a market exchange. The use of different assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

BETHPAGE FEDERAL CREDIT UNION AND SUBSIDIARIES
Notes to Consolidated Financial Statements
December 31, 2013 and 2012
(dollars in thousands)

The following methods and assumptions were used to estimate fair values of financial instruments not previously discussed as disclosed herein:

Loans Receivable, net and Loans Held for Sale

The estimated fair value for all fixed rate loans is determined by discounting the estimated cash flows using the current rate at which similar loans would be made to borrowers with similar credit ratings and maturities (Level 3 input). The estimated fair value for variable rate loans is the carrying amount (Level 3).

The impact of delinquent loans on the estimation of the fair values described above is not considered to have a material effect and, accordingly, delinquent loans have been disregarded in the valuation methodologies employed.

The estimated fair value of loans held for sale is determined in the aggregate based on the market price of similar loans (Level 3 input).

Other Investments

The fair value of other investments equals its carrying value (Level 2).

Members' Shares and Borrowed Funds

The estimated fair value of demand deposit accounts (regular shares, share draft accounts, money market accounts and individual retirement accounts) is the carrying amount (Level 3). The fair value of fixed-maturity certificates and borrowed funds is estimated by discounting the estimated cash flows using the current rate at which similar certificates would be issued (Level 3 input).

Other On-Balance-Sheet Financial Instruments

Other on-balance-sheet financial instruments include cash and cash equivalents and accrued interest receivable. The carrying value of each of these financial instruments is a reasonable estimation of fair value (Level 2).

Off-Balance-Sheet Financial Instruments

The fair values for the Credit Union's off-balance-sheet commitments are estimated based on fees charged to others to enter into similar agreements taking into account the remaining terms of the agreements and credit standing of the members. The estimated fair value of these commitments is not significant.

Notes to Consolidated Financial Statements

December 31, 2013 and 2012

(dollars in thousands)

The estimated fair value of the Credit Union's financial instruments is summarized as follows:

	December 31, 2013		December 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets				
Cash and cash equivalents	\$ 36,000	\$ 36,000	\$ 36,036	\$ 36,036
Investments available-for-sale	2,428,311	2,428,311	2,355,991	2,355,991
Other investments	13,510	13,510	16,051	16,073
Loans held for sale	14,497	14,496	31,984	31,105
Loans receivable, net	2,830,747	2,818,992	2,588,573	2,619,255
Mortgage servicing rights	18,691	33,740	17,365	18,580
Financial liabilities				
Members' shares	4,887,788	4,753,938	4,571,213	4,536,309
Borrowed funds	19,750	19,750	-	-

15. SECURITIZATIONS

The Credit Union securitizes loans as a source of funding. In a securitization, debt securities are issued and are generally collateralized by a single class of transferred assets, such as residential mortgages. The Credit Union had \$53,588 and \$42,821 outstanding as of December 31, 2013 and 2012, respectively of GNMA guaranteed Residential Mortgage Backed Security securities (RMBS) while retaining the rights to servicing.

Under the provisions of the RMBS program, the Credit Union, as the issuer and servicer, in specific instances is obligated to collect certain "defaulted" mortgages that are subject to a specific collection process under FHA and HUD guidelines. Management has determined that under certain circumstances it is possible that the Credit Union might, in some instances, collect amounts that are less than the HUD guaranteed amount. Additionally, if a borrower prepays a loan at any time during any month other than at the end of the month the Credit Union cannot charge a prepayment penalty and must pay the bond holders interest as if the loan were outstanding all month.

As part of the securitization process the Credit Union enters into forward delivery contracts. At December 31, 2013 outstanding forward delivery contracts were \$1,306. These agreements are matched to the dollar amount of each securitization trade.

16. SUBSEQUENT EVENTS

The Credit Union evaluated subsequent events through March 31, 2014, the date the financial statements were available to be issued. The Credit Union is not aware of any subsequent events which require recognition or disclosure in the audited consolidated financial statements.
