How We Will Calculate Your Balance: We use a method called “average daily balance (including new purchases).”

***Variable Rate Information:** Prime Rate: Variable APRs are based on the 3.25% Prime Rate as of June 1, 2011. The ANNUAL PERCENTAGE RATE may increase during the term of this agreement if the rate disclosed as the U.S. Highest Prime Rate published in the Wall Street Journal in the cycle prior to the billing date. The ANNUAL PERCENTAGE RATE will be calculated by adding a margin to the index. Margin is determined by your creditworthiness. The maximum ANNUAL PERCENTAGE RATE will not exceed 18%, or the rate permissible under the Federal Credit Union Act, whichever is less. Any increase in the ANNUAL PERCENTAGE RATE will result in a higher monthly payment; a decrease will result in a lower monthly payment.
