DESCRIPTION OF DIGITAL SERVICES COVERED IN THIS AGREEMENT

General Information:

Digital Services include all content, information, communications, features, products and services available to you after you register for Online Banking and Mobile Banking. You can view account balances, transaction details, payments made, payments due and other information associated with your accounts, as well as perform certain transactions such as those defined in the previous section.

In addition, you can perform various self-service and account management functions including ordering checks, placing a check stop payment, locating a branch or ATM, keeping your email, address and phone information up-to-date, and setting up account alerts for certain account conditions such as when your balance falls below an amount you set. Online Banking and Mobile Banking menus will include any additional services available, or services made available in the future, along with additional information about the services offered as necessary.

In addition to the terms and conditions described in this Agreement, the Addendums include additional disclosures, terms and conditions to which you are bound if you use the applicable Digital Services, and you continue to be bound by all other terms and conditions previously provided for your account(s).

Account Notifications:

Bethpage offers both security notifications and optional notifications you can set up for information about your account and transactions (e.g., balances, last transactions, low balance and other information about your transactions or account status). Optional account notifications that you select are generally processed within one (1) business day after receipt of your selection, and timing may depend on the type of alert selected and your timing preference. Certain optional Mobile App notifications can be set within the Mobile App.

Security notifications are provided for your protection when certain changes are made such as password and user ID updates, changes to your contact information or the addition of a new Bill Pay payee. Information for both security notifications and optional notifications will be delivered to you based on your choice to receive either text (SMS) messages, Mobile App push, or email messages for notifications. In order to receive notifications via text message, your mobile device must be subscribed to a wireless service, and you must be able to receive text messages using your mobile device and your carrier's service. **PLEASE NOTE: Depending on your wireless service plan, message and data rates may apply.**

By signing up to receive optional account notifications, you consent to delivery of such messages in the format you selected (such as text, Mobile App push notification, or email message). By signing up to receive text messages, you consent to receive SMS notifications and/or text messages from or on behalf of Bethpage to the mobile phone number you have provided. These SMS notifications, Mobile App push notifications and/or text messages will be solely in connection with information regarding your account and/or transactions. For additional information about consent to receive communications, please refer to your Member Account Agreement, “MONITORING AND RECORDING TELEPHONE CALLS AND CONSENT TO RECEIVE COMMUNICATIONS” section.

For both security notifications and optional notifications, you are responsible for notifying us of any changes to the email or mobile device to which messages are sent. Your full account number will not be included in these types of messages. However, the information may contain our name and information about your accounts. Anyone with access to your email or mobile device may be able to view the contents of the message. It is your responsibility to secure your mobile device and your email account and to protect your user ID and password.

Account notifications are an informational tool only, and may not reflect real time information or pending transactions. You should not rely solely on these notifications for managing your account or informing you of your account status. You agree that we will not be liable for any delays, failure to deliver or for any errors in content or for any actions taken or not taken by you or any third party in reliance on an account alert. If you require additional details about a transaction or the status of your account, you should sign on to Online Banking or Mobile Banking or contact us as described in the Contact Information section of this Agreement.

You may also receive certain notifications for specific transactions that take place with respect to your account that you do not initiate, such as Internal Transfers posted to or from your account.

Biometric Login:

Mobile Banking supports authentication using Face recognition ID or Fingerprint ID to login, depending on your device's capability. Once authenticated, you can choose to log into the Mobile App using Face ID or Fingerprint ID in lieu of entering your user ID and password. If your mobile device offers this functionality, you may enable it directly through your mobile device settings. **IMPORTANT:** Please remember once you enable fingerprint authentication for Mobile Banking, anyone with a fingerprint stored on your device will have access to your account. You can turn off this feature in your mobile device settings at any time.

Bethpage may revoke, restrict, suspend, or terminate this license for any reason or no reason in its sole discretion.

Some of the software Bethpage uses to provide the Digital Services is licensed from Service Providers. Bethpage and, to the extent applicable, such Service Providers, shall retain all right, title, and interest in and to the Digital Services and any modifications and updates thereto, and all rights not expressly granted to you herein are reserved by Bethpage and its applicable Service Providers.

You will not directly or indirectly license, sell, lease, otherwise transfer, copy, distribute, alter, modify, disassemble, decompile, reverse engineer, otherwise attempt to derive the source code of, or interfere with the operation of any part of the Digital Services, nor will you access or use, or attempt to access or use, the Digital Services to take any action that: (i) violates Bethpage's and its Service Providers' rights in the Digital Services or any content contained therein; (ii) violates any applicable law; or (iii) that could harm Bethpage, its Service Providers, or any third party.

You represent and warrant that (i) you are not located in a country that is subject to a U.S. Government embargo, or that has been designated by the U.S. Government as a "terrorist supporting" country; and (ii) you are not listed on any U.S. Government list of prohibited or restricted parties.

Intellectual Property

All content, including but not limited to the information, materials, text, software, computer code, scripts, graphics, images, photos, sounds, music, video, and interactive features appearing on the Digital Services and the trademarks, service marks and logos contained therein, are owned by or licensed to Bethpage. The products, services, technology, or processes described in the Digital Services may be the subject of other intellectual property rights reserved by Bethpage, Service Providers, or other third parties.

Any unauthorized use of the content contained within or materials available through the Digital Services may violate copyright, trademark, unfair competition, false advertising, privacy, and other laws, and may infringe upon the rights of Bethpage, its affiliates, Service Providers, and/or their respective licensors. Except as expressly provided in this Agreement, nothing contained herein shall be construed, under any theory, to confer any license or right to any intellectual property of Bethpage, its affiliates, its Service Providers, or any third party.

REQUIREMENTS FOR DIGITAL SERVICES REGISTRATION

General Technical Requirements:

You will need a personal computer, mobile device or tablet, with current versions of browser and operating systems to access your accounts. You will also need Acrobat® Reader or similar software to view and/or print documents made available through Online Banking and Mobile Banking. You are responsible for the installation, maintenance and operation of all software and hardware. Bethpage is not and will not be responsible for any errors or failures caused by or related to mobile service, Internet service, telecommunications services, hardware, or software. In addition, if you are using a browser or operating system that does not meet established security standards or you disable security features, your access may be restricted or limited and your system may be compromised. The best way to avoid technology-related restricted or limited access and security issues is to use current versions available and install any updates and patches made available by your hardware and software providers in a timely manner. For more information on hardware and software requirements, see “Hardware and Software Requirements”.

Authorized Access:

When you register for Bethpage Digital Services, you will be prompted to set up your user ID and password and provide any other authentication information we deem necessary. This may include sending you a one-time code via email or text message that you will be required to enter as part of the authentication process. Each joint account holder or authorized signer will be required to register and authenticate their identity to access Digital Services. Your password for Digital Services has no effect on your PIN used for other access devices such as an ATM or Debit card or Telephone access. You may change your user ID or password any time after registration. Once registered, you can enable fingerprint authentication through your mobile device settings for future log-on.

General Registration Restrictions:

To register for Online Banking and Mobile Banking, you must be an account owner with a valid social security number already on file and must be 15 years of age or older. For access by account holders between 15 years and 18 years, parental consent may be required. If at any time, we have cause to believe the security of your account or our system may be in question, access may be restricted or limited without notice. Any additional restrictions for a specific Digital Service will be identified in the applicable Addendum and/or when you access the applicable Digital Service.

Business Member Access and Multi-User Requirements:

Once authenticated and registered, the system administrator (“System Administrator”) will have access to an “Administrator Console” through Online Banking. The Administrator Console will allow

you to assign access to your designated authorized person(s) (“User(s)”) and to select specific functions that each User will be authorized to perform. Each designated User authorized by the System Administrator will be prompted to establish his or her own log-in credentials. Users will only be able to see the functions authorized by the System Administrator for access by that User. The use of the term “System Administrator” as used in this Agreement shall have the same meaning as the term “Master User used in any other Agreement you have with Bethpage”

The System Administrator shall be responsible for:

- (i) Determining whether additional Users should be provided with the access and to which functions;
- (ii) Setting up the authorizations in the Administrator Console;
- (iii) Assigning and, when necessary or appropriate, resetting user IDs and passwords for a User; Users will be prompted to reset their password after their first log-in;
- (iv) Supervising User access to the Digital Services; and
- (v) Serving as the main contact for receipt of information relating to their account and their Users’ use of Digital Services.

You understand and agree that the Account Administrator may empower a User to engage in all of the administrative tasks and to access all the Digital Services that the Account Administrator may engage in and access. You agree that all actions of the Account Administrator (and such Users as the Account Administrator shall designate) with respect to Digital Services and accessing your accounts shall be deemed authorized by you. You understand that if assistance from Bethpage is required for a service initiated by a designated additional user who is not otherwise authorized on the account (i.e., joint owner or authorized signer), the Account Administrator will need to contact Bethpage directly for assistance.

INTERNAL TRANSFERS

With respect to internal transfers between Bethpage accounts (“Internal Funds Transfer Services”), expressly excluding the following transfer types, which are governed under separate addendums or agreements: Wire Transfers, Bill Payment Transfers, and Person to Person Transfers, the following shall apply.

General Information

When you access or use the Internal Funds Transfer Services function through Online Banking or Mobile Banking, you will be prompted to select the type of transfer and provide required transfer information. There are no fees for these Internal Funds Transfer Services. Transfers are generally processed immediately or on the day you scheduled the transfer to take place. Transfers scheduled in advance may be cancelled or edited prior to the transfer date.

We reserve the right to impose a frequency or dollar limit on transfers, or to refuse to make any transfer between certain accounts. We are obligated to notify you promptly if we decide to refuse to complete your transfer instruction, unless you attempt to make transfers that are prohibited under any Bethpage agreement governing use of the Internal Funds Transfer Services for your account or prohibited under federal or state laws. This may include limits on the number of transfers from savings and money market accounts as mandated by federal law.

Internal Transfers – Same Ownership

You may transfer funds between your Bethpage accounts with like ownership titles or transfer funds to make a payment to eligible Bethpage loan accounts (excludes credit card payments). You may initiate a onetime transfer or schedule a transfer or series of transfers in advance. There is currently no transfer amount limit.

Member to Member Transfers

You may transfer funds from your Bethpage account to another Member's checking or savings account at Bethpage. You can also set up transfer account information for another Member that can be saved and selected for future transfers. To protect the privacy and security of our members, you should obtain permission and verify the account number, email address and confirm the exact name and spelling with the other Member. You will be required to enter the other Member's last name and account number in order to set up a link to the other Member's account to initiate a transfer. Once you set up the link to the other Member's account, you can initiate a transfer immediately, or schedule a transfer for a future date. A notification confirming the transfer instructions will be sent to both you and the Member receiving the funds by email (to the extent there is an email address associated with the account). The transaction on the periodic statement for both the sender and receiver will show the amount of the transfer and both account numbers for the credit ("TO" account) and the debit ("FROM" account).

You understand that you may only transfer funds into the account you establish and you cannot receive funds from the account(s), nor will you have access to any information regarding the other Member's account, other than name and account number. The person receiving the funds will see your account number on their periodic statement and online for the transfer. You agree and accept responsibility for obtaining permission from the Bethpage account owner to send funds to their account using this service.

PROTECTING ACCESS INFORMATION

We identify you by your unique user ID and password or Fingerprint ID and any other additional reasonable means we deem necessary or appropriate. To prevent unauthorized access to your accounts, you agree to protect and keep confidential your user ID, password, account number and any other means of accessing your account. If you share any account or online banking access information, you assume all associated risks and monetary losses that may arise, to the extent permitted by applicable law and regulation. Transactions initiated by using your user ID and password or Fingerprint ID will be considered as having been authorized by you and constitutes your legal permission, authorization and signature to perform the transaction(s) requested, as allowed by the Electronic Signatures in Global and National Commerce Act ("E-SIGN Act") and other applicable law and regulation.
